

Aptitude Software appoints Nick Nesbitt as EVP, to lead international growth

NEWS | For Immediate Release – August 19, 2020

Aptitude Software, a leading provider of financial management software, is excited to welcome Nick Nesbitt as Executive Vice President, International where he will drive business development across the APAC and EMEA regions.

Nick brings over 20 years' experience in the Corporate Performance Management (CPM) and Regulatory Reporting market, building and managing large CPM technology practices and holding sales and delivery roles covering a wide range of industry sectors and customers. Nick joins from Vuelta where he was Managing Director, UK and Ireland, and Tagetik, where he was responsible for launching the Tagetik brand and business in the UK market for the first time. He has previously held roles at IBM, Oracle, and Accenture.

Despite the headwinds posed by COVID-19 in the first half of 2020, Aptitude Software announced an 11% increase in ARR and a 51% increase in software and subscription-based sales revenue. Aptitude also recently announced a new strategic partnership with Japanese firm, FIERTE Corporation to expand the company's global presence. Nesbitt's appointment indicates executive-level investment in the EMEA and APAC regions, as the momentum around financial transformations increases in the region.

Jeremy Suddards, CEO of Aptitude Software, states, "Nick's experience directly aligns with our strategic objectives. Over the course of his career, Nick has shown a demonstrable track record of exceeding financial and operational KPIs in competitive environments. His expertise across sales, technology, delivery, and client services combined with the products and solutions we have to offer the EMEA and APAC regions leaves Aptitude well positioned for success."

Nick officially joined the organization on August 17th and is based out of Aptitude Software's London office. He will also sit on the company's Senior Leadership Team.

He states, "I am very much looking forward to getting started in my new role and am energized by Aptitude's opportunity in the market. The laser focus on the CFO office, which has largely been left behind in transformation projects, is now critical and timely as organizations approach issues like digital finance, complex regulatory compliance, and the need for absolute efficiency."
